- Carlsberg re-integration fellowship automated species monitoring using deep learning-based detectors, University of Copenhagen, Denmark 1/8 2023-31/7 2025
- Postdoc detecting and classifying cod vocalizations using Deep Learning at University of Agder, Grimstad, Norway 11/1 2021-10/7 2023
- Extension of Postdoc estimating population density of fin- and blue whales using region-based convolutional neural networks, tag data analysis at Texas A&M Galveston University, Galveston, Texas, USA 16/3 2020-31/12 2021
- Postdoc estimating population density of fin- and blue whales using region-based convolutional neural networks at Texas A&M Galveston University, Galveston, Texas, USA 15/3 2019-15/3 2020
- Extension of Postdoc bioacoustics/neural networks/Computer Vision at Leibniz Institute FBN, Department of Bbehavioral Physiology, Germany 1/9 2018-14/3 2019
- Short term Postdoc in using bioacoustics as proxy for stress in farm animals at Leibniz Institute FBN, Department of Behavioral Physiology, Germany 1/5-1/9 2018
- Lecturer in Comparative Physiology and course responsible in Animal Behavior, SDU 2017-2018
- Field research assistant for Dr. Menna Jones in Tasmania, working with Tasmanian devils 2000.
- Field research assistant for Dr. L. David Mech in Minnesota, working with wolves 1998.
